

WHY SOFTWARE DEVELOPERS NEED THE RESEARCH & DEVELOPMENT TAX CREDIT

If you're coding in the U.S. you know how expensive it can be versus outsourcing to India and Eastern Europe.

Congress wants you to keep jobs on American shores.
The R&D Credit is designed to do just that!

Does your company partake in any of the below
Qualified Research Activities?

- Implementing new feature requirements based on customer feedback
- Publishing newer versions of existing applications with new features
- Adding new processes to the software to automate data transfers
- Writing APIs to integrate with third party applications
- Enhancing reliability and speed of specific processes
